

R-902

R-902 is a Metal Chamfering and growing electrode for all metals

Basis OF Alloys : Metal Oxide

CHARACTERISTICS & APPLICATION : R-902 An AC/DC highly efficient electrode for chamfering and growing of all ferrous and non-ferrous metals using standard electric arc and no need of compressed air.

DIEMENSION, CURRENT CONDITION & PACKING DATA:

| Size(mm) (Dia) | Size(inch) (Dia) | Current Condition (DC-/ AC) Amps | weight of packet (Kgs) | Weight of Case |
|-------------------|---------------------|-------------------------------------|------------------------------|----------------|
| 3.15/ 3.20 X 350 | 1/ 8" X 14" | 100-130 | 5 | 20 |
| 4.00 X 350 | 5/ 32" X 14" | 150-180 | 5 | 20 |
| 5.00 X 350 | 3/ 16" X 14" | 210-260 | 5 | 20 |

Customer packing on request.
